

Pupils' subtest raw scores listed by merit order

School: Sample School

Section: A

Group: Year R1Y

No. of pupils: 100

CAT level: E

The following pages give a summary of the results achieved by your class/group on the subtests of the Verbal, Quantitative and Non-Verbal batteries. The pupils are listed by merit order and the table is divided into 4 groups of columns:

1. Pupils' personal data;
2. Raw scores for each of the Verbal subtests together with an overall raw score for the Verbal battery;
3. As 2 but for the Quantitative battery;
4. As 2 but for the Non-Verbal battery;

The first column in the Verbal group, (No. Att.) shows how many questions each pupil attempted to answer. The maximum possible number of questions attempted (78) is shown in brackets in the column header. The next column (V1) is for the Vocabulary Classification subtest of the Verbal battery. It contains pupils' raw scores (RS) with the maximum possible raw score (24) shown in brackets in the column header. Similar columns show details for the V2 and V3 subtests of the Verbal battery.

The names of all the subtests are given below for easy reference. Please consult the manual for further information about interpretation of scores.

V1 Verbal Classification
V2 Sentence Completion
V3 Verbal Analogies

Q1 Number Analogies
Q2 Number Series
Q3 Equation Building

N1 Figure Classification
N2 Figure Analogies
N3 Figure Analysis

Pupils' subtest standardised scores listed by merit order

School: Sample School

Section: B

Group: Year R1Y

No. of pupils: 100

CAT level: E

The following pages give a summary of the results achieved by your class/group on the subtests of the Verbal, Quantitative and Non-Verbal batteries. The pupils are listed by merit order and the table is divided into 5 groups of columns:

1. Pupils' personal data;
2. Stanine scores for each of the Verbal subtests together with the overall Stanine, Standard Age Score (SAS), National Percentile Rank (NPR) and the Group Rank (GR) for the overall Verbal battery;
3. As 2 but for the Quantitative battery;
4. As 2 but for the Non-Verbal battery;
5. Mean SAS values and Group Rank over all 3 batteries.

The Stanine and Standard Age Score can only be calculated if a pupil's age is in the correct range for this level of CAT.

The names of all the subtests are given below for easy reference. Please consult the manual for further information about interpretation of scores.

V1 Verbal Classification
V2 Sentence Completion
V3 Verbal Analogies

Q1 Number Analogies
Q2 Number Series
Q3 Equation Building

N1 Figure Classification
N2 Figure Analogies
N3 Figure Analysis

Cognitive Abilities Test Ireland

Further Information about CAT scores is provided in the Cognitive Abilities Test Administration Manual.
